

Aflac offers a variety of products to meet the needs of individuals and families. While these products are employee paid, it can save you money to sign up through an employer sponsored plan due to lower premiums and pre-tax payroll deductions; your tax withholding is calculated AFTER your premiums for these qualifying plans are deducted - saving you money!

Examples of plans offered are:

- **Accident Insurance** pays cash benefits to help provide peace of mind during the different stages of accident care and recovery. Benefits can be used to help pay for emergency treatment, as well as for treatment-related transportation and lodging.
- **Short-term Disability Insurance** offers income replacement benefits to help with the loss of income due to a covered illness or injury.
- **Hospital Insurance** helps you to be better prepared for unexpected hospital expenses not covered by medical insurance with high deductibles.
- **Critical Illness Insurance** can help with the treatment costs of a serious health event, so you can focus on more important things in life - like getting better.
- **Cancer Insurance** helps you better cope financially and emotionally if a positive diagnosis of cancer ever occurs.
- **Dental and Vision Insurance**
